ROSEHIP PRODUCT BROCHURE

A legacy of great quality

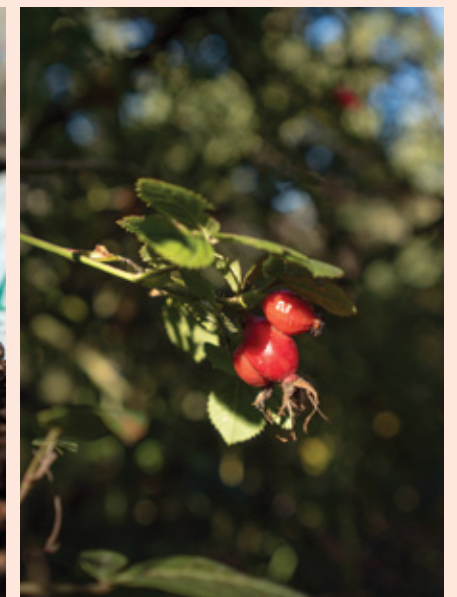

Straight from Nature to You

From their delicate petals to protective thorns, roses have been a symbol of both beauty and health for centuries. The hardy *Rosa canina* (commonly known as the dog rose) is a scrambling, deciduous shrub with hooked thorns and pink-white petals.

This thorny creeper nestles between the dramatic peaks of Lesotho's majestic Maluti Mountains, where it reveals its vast healing potentials.

Humble origins, global impact

The hand-picked rosehip is the pseudocarp (accessory fruit), which is the lesser-known part of the rose: the round, seed-filled, orange-red hip found underneath the petals.

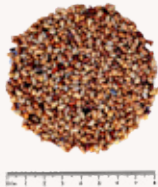

Before wild harvesting commences, the rosehip is given time to mature on the bush, allowing for its natural flavours and sugars to develop and caramelize, offering a delicate, characteristically floral, and slightly sweet flavour with a distinctly tart aftertaste.

Rich in nutrients and disease-fighting properties, rosehips have gained much attention within the nutraceutical and cosmetic industries. They are abounding in antioxidants, containing high levels of polyphenols, carotenoids, and vitamins C and E. Rosehips may aid in strengthening the immune system, protect against heart disease and type 2 diabetes, reduce osteoarthritis pain and inflammation, and support weight loss.

Your choice of Rosehip products

Grade Name	Visuals Cut	General Description	Bulk Packaging	Certifications	Recommended Use			
					Loose Application	Pyramid Bags	Pillow Bags	Double chamber string & tag bags
Rosehip Whole Berries HR09		<p>Dried, whole and unbroken berries of the Dog rose (<i>Rosa canina</i>)</p>	<p>20 kg paper bags 60 paper bags per pallet: 1 200 kg 10 pallets per 20ft container: 12 000 kg 20 pallets per 40ft container: 24 000 kg</p>	<p>Also available as organically certified</p>	★★★	★★	★	★
